2.8 Supporting candidates

Centres should ensure that candidates are informed of the title and level of the qualification they have been entered for and that Oxford Cambridge and RSA Examinations (OCR) is the awarding body for their chosen qualification.

2.9 Wider issues

This qualification provides potential for centres to develop candidates' understanding of spiritual, moral, ethical, social and cultural issues and heighten candidates' awareness of environmental issues, health and safety considerations and European developments.

Spiritual, moral, ethical, social and cultural issues

Teachers and tutors delivering a course in the Level 3 Certificate in Advanced Fitness Training (Gym) that supports these specifications, would have opportunities to address ethical, social and moral values throughout the units. They include:

- both individual and group/team responsibility;
- business and social responsibilities;
- responsibility towards the customer;
- courtesy and protocols when dealing with clients and colleagues;
- security and confidentiality of information.

Environmental issues, health and safety considerations and European developments

Health and safety issues and their application are an integral part of all units. In these units candidates will need to understand the legislative requirements as they apply to fitness instructing and be able to apply this knowledge in a gym environment. In particular candidates would be expected to be able to understand the key legislative and best practice aspects of instructing fitness.

2.10 Guided learning hours

The time it will take a candidate to complete this qualification will depend on a number of things, for instance, mode of study (i.e. whether full-time or part-time) and level of knowledge or experience on entry onto the programme of study. As a general guide the units in this qualification are likely to require the following numbers of guided learning hours (glh).

Title	GLH
Unit 1 Advanced Fitness Knowledge	50
Unit 2 Advanced Resistance Training	50
Unit 3 Advanced Cardiovascular Training	50

2.11 Funding

This qualification is accredited at Level 3 of the National Qualifications Framework and is eligible for funding under Section 96 and/or 97 arrangements. Should you require any more information on funding please contact The Learning and Skills Council.

2.12 Mode of delivery

OCR does not specify the mode of study or specify a time limit for the achievement of this qualification other than the expiry dates for entry and certification laid down by the regulatory authorities detailed in the qualification profiles.

Centres are free to deliver this qualification using any mode of delivery that meets the needs of their candidates. Whatever mode of delivery is used, centres must ensure that learners have appropriate access to the resources identified below.

Centres should consider the candidates' complete learning experience when designing learning programmes. This is particularly important in relation to candidates studying part time alongside real work commitments where candidates may bring with them a wealth of experience that should be utilised to maximum effect by tutors and assessors.

2.13 Resources

OCR strongly advises that teaching and development of subject content and associated skills be referenced to real vocational situations, through the utilisation of appropriate work-based contact, vocationally experienced delivery personnel, and real life case studies.

Candidates should be encouraged to read around the subject and have an appropriate knowledge of the application of the appropriate legislation (eg Health and Safety).

Centres will need to provide appropriate assessment facilities for candidates that complies with the regulations laid down by OCR (*the Administrative Guide to Vocational Qualifications – code A850*).

Centres will need to meet the above requirements when they seek centre approval from OCR.

Centres should ensure that appropriate physical resources are available in line with guidance provided in this handbook.

2.14 Delivery in Wales and Northern Ireland

The specification for this qualification has been approved by the Department for Education, Lifelong Learning and Skills (DELLS) for use by centres in Wales and by the Council for the Curriculum Examinations and Assessment (CCEA) for use by centres in Northern Ireland.

Candidates in Wales or Northern Ireland should not be disadvantaged by terms, legislation or aspects of government that are different from those in England. Where such situations might occur, including in the external assessment, the terms used have been selected as neutral so that candidates may apply whatever is appropriate to their own situation.

We will provide specifications, assessments and supporting documentation in English.

Further information concerning the provision of assessment materials in Welsh and Irish may be obtained from the OCR Customer Contact Centre: 024 76 851509.

2.15 Arrangements for candidates with access-related needs

We aim to make sure that all candidates are given equal opportunity to demonstrate their skills.

OCR recognises that there are some candidates who can demonstrate attainment in the skills being assessed, but who may be disadvantaged by standard assessment arrangements. For these candidates standard assessment arrangements may be adjusted to enable them to compete on an equal basis with other candidates, provided that the adjustments do not compromise the integrity of the qualification.

Adjustments to standard assessment arrangements are made on the basis of the individual needs of candidates. This is to ensure that the adjustment will only compensate candidates for their particular difficulty without giving them an advantage over others.

It is important, therefore, that centres identify as early as possible whether candidates have disabilities or particular difficulties that will put them at a disadvantage in the assessment situation and select an appropriate qualification or adjustment that will allow them to demonstrate attainment.

The responsibility for providing adjustments to assessment is one which is shared between OCR and the centre. Centre staff should consult the OCR publication *Access to Assessment: NVQs, Vocationally-related Qualifications (VRQs) and other Vocational Qualifications - Regulations and Guidance Relating to Candidates with Particular Requirements* (code L016) for a description of their responsibilities and the procedures by which adjustments can be made.

For further guidance on specific assessment requirements of individual qualifications and appropriate adjustments to assessment, centres are advised to contact the relevant Qualifications Team at OCR's Coventry office.

2.16 Results enquiries and appeals

Please refer to the *Administrative Guide to Vocational Qualifications* (code A850).

2.17 Centre malpractice guidance

It is the responsibility of the Head of Centre* to report (in writing) all cases of suspected malpractice involving centre staff or candidates, to the OCR Quality and Standards division.

When asked to do so by OCR, Heads of Centres are required to investigate instances of malpractice promptly, and report the outcomes to the OCR Quality and Standards division.

Further information is contained in the publication *Malpractice in Examinations and Assessment* (code R322) which is available from the OCR Customer Contact Centre: 024 76 851509.

* The Head of Centre is defined as the most senior officer in the organisation, directly responsible for the delivery of OCR qualifications, eg the Principal of a College, the Head Teacher of a school, the Managing Director of a private Training Provider or the Group Training Manager of a major company.

3 Assessment

3.1 Assessment

Each unit within these specifications is designed around the principle that candidates will build a portfolio of evidence relating to progression towards meeting the unit assessment objectives.

The unit assessment objectives reflect the demands of the learning outcomes for each unit.

In order for candidates to be able to effectively progress towards meeting the requirements of each assessment objective, tutors must make sure that the supporting knowledge, understanding and skills requirements for each objective are fully addressed. The identified knowledge, understanding and skills are not exhaustive and may be expanded upon or tailored to particular contexts to which the unit is being taught and the assessment objective applied.

We recommend that teaching and development of subject content and associated skills be referenced to real vocational situations, through the utilisation of appropriate work-based contact, vocationally experienced delivery personnel, and real life case studies.

Assessment of this qualification will be conducted in accordance with the appropriate codes of practice approved and published by the regulatory authorities.

Key features of the assessment of this qualification are:

- Assessment of Unit 1 is by an examination, administered by the centre and graded as Pass or Fail based on the achievement of the required passmark.
- The modes of assessment and time permitted for the assessments used are based on the requirements laid down under Centre-assessed units.

Centre-assessed units

Unit 1 is a centre-assessed test that is marked by the centre and externally verified by OCR. Tests are provided by OCR.

BEFORE the test:

The procedure for the **security of papers, invigilation arrangements** and **examination room procedures** is outlined in the Administration Catalogue A850.

The questions should not be substituted or changed.

A different test should be used for each session. A log should be kept of which dates the test was held and which test was given. This log might be requested at the External Verifier's visit. It is the Centre's responsibility to use the range of papers and ensuring unpredictability.

Question papers are not to be written on and must be checked to ensure they are still clean before being re-used.

AFTER the test:

Question papers must be collected and immediately secured. Candidates must not remove any papers from the examination room.

The Centre can decide how quickly they mark the Candidate answer sheets and when they give results. Note: the tests should not be marked in front of the candidate.

Candidates should be informed of a Pass or Fail. No other feedback should be given, although if the candidate has not passed, they may be advised which sections they should spend more revision time on before any retake. The pass rate is a minimum required.

PASSED the test:

Only a record of the date and result of the test should be retained in the candidate's folder. Do not put any of the original test papers in the folder.

Candidate answer sheets need to be kept up to 3 years and be available for inspection by the External Verifier.

RETAKE the test:

Under no circumstances should the candidate repeat the same test.

Whilst it is at the discretion of the centre how quickly a candidate re-sits a test, if it has been a marginal fail, it might be appropriate to wait a week to re-sit. If however it is a substantial fail, then we would recommend a few weeks to allow them to revise before re-sitting. All attempts at the test must be recorded on the appropriate documentation in the candidate's folder.

Units 2 and 3

Units 2 and 3 will be assessed through a case-study. The case-study will be assessed locally and internally verified. All of the information required for the case-study, and associated documentation, can be found on this CD-ROM. The case-study may be taken at any time.

Candidates will be required to demonstrate competence in all of the assessment criteria.

When candidates complete an assignment/activity, the centre assessor (usually the teacher/tutor) assesses their work. Centres will need to identify staff who will act as assessors. Assessors will need to have experience in making judgments about candidates' progress.

Role of the Assessor

Candidates will be assessed by assessors appointed by approved centres. All assessors must be occupationally competent as detailed in the Assessment Strategy. Centres must have at least one assessor, supported by an internal verifier.

Role of the Internal Verifier

Each approved centre is required to appoint at least one internal verifier who must be occupationally competent as detailed in the Assessment strategy. The internal verifier is required to monitor and standardise assessments carried out through the approved centre. Further guidance on the role of internal verifier may be found in the OCR publication Administrative Guide to Verified Qualifications – code L526 (available on the OCR website).

Internal standardisation

Internal standardisation is an important part of the local assessment process. Centres will be required to demonstrate that a system is in place which ensures that all assessment is being carried out in a similar way and to an equivalent standard across all teachers/tutors acting as assessors. OCR will require evidence of this process. Centres are required to keep evidence of standardisation and records of any decisions/issues for a minimum of one year.

In order to maintain a consistent approach to internal standardisation, a centre co-ordinator should be nominated. The centre co-ordinator will be responsible for:

- maintaining a list of current assessors
- ensuring that all current assessors are working to the same standard

- arranging regular meetings
- ensuring cross-moderation of work between assessors
- maintaining records of the outcome of cross-moderation activities
- regularly sampling the assessment of all assessors and documenting the outcome
- advising assessors of any discrepancies in assessment and suggesting ways in which assessment may be brought into line with the work of other assessors
- completing the relevant centre standardisation document.

External verification

External verification will be performed by verifiers, appointed and trained by OCR who will visit the centre to monitor the quality of assessment. Verifiers will visit each centre at least twice a year, on at least one visit, the verifier will observe practical coaching sessions. External verifiers will also sign the certification request form at the time when a centre is making a claim for a certificate.

4 Certification

Candidates who reach the required level to pass the examination for all units that make up a full award will receive:

- a certificate listing the units and
- a certificate giving the full qualification title

OCR Level 3 Certificate in Advanced Fitness Instructing (Gym)

Candidates achieving one or more units but who do not meet the requirements for a full certificate, will receive a certificate listing the units they have achieved.

4.1 Claiming certificates

Certificates will be issued with results for successful candidates. In order to ensure that these are automatically issued centres must ensure that the OCR candidate number is **always** used where a candidate has already achieved one or more units. See the *Administrative Guide to Vocational Qualifications* (code A850) for full details.

4.2 Replacement certificates

If a replacement certificate is required a request must be made to the OCR Operations Division on 024 76 470033, or in writing to the Coventry office, and an application form with further instructions will be sent. A charge will be made for a replacement certificate.

5 Qualification structure and units

5.1 Qualification structure

Candidates do not have to achieve units in any particular order and tutors should tailor learning programmes to meet individual candidate needs. It is recommended that, wherever possible, centres adopt an holistic approach to the delivery of the qualifications and identify opportunities to link the units.

If a candidate is not able to complete a full award, their achievements will be recognised through the issue of a unit certificate listing the units achieved.
